

TAGCarts. Designed for Nurses... by Nurses.

Nurse Safety

- Lightweight with high performance wheels for improved mobility
- Germ Guard handles for infection control
- Stable with low center of gravity

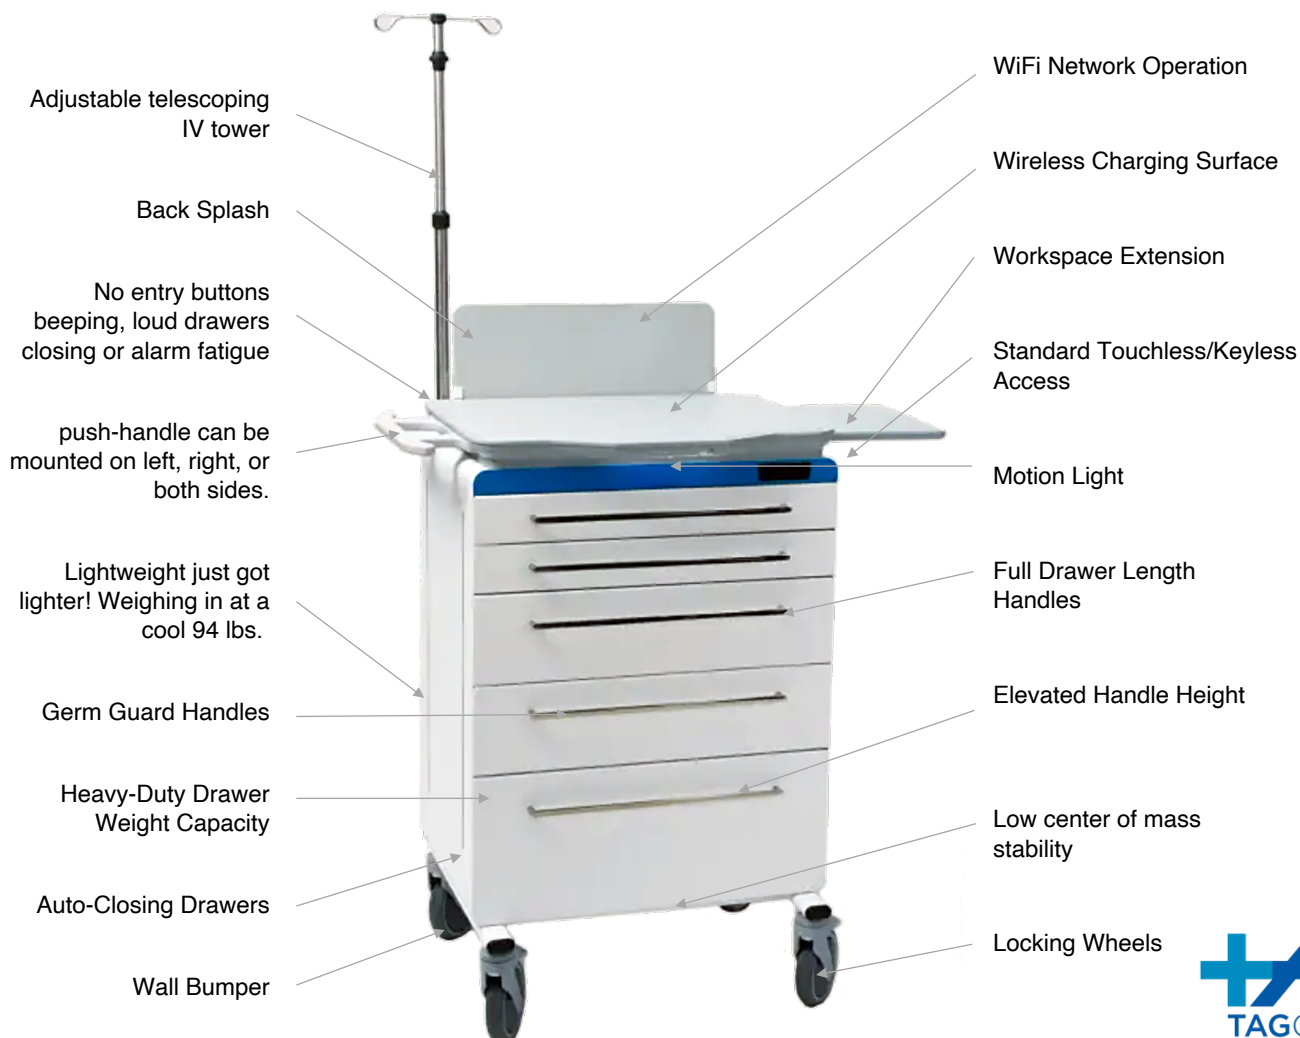

Nurse Workflow

- High backsplash to keep supplies where you need them
- Wifi enabled with wireless charging, motion lighting, improved drawer design, touchless access, and minimal alarms.

Nurse Design

- Innovative features with flexible design to support patient care, safety, and workflow.

Supply Cart. Treatment Cart. Procedure Cart. Specialty Cart.

More than a Cart

Environmentally Friendly

TAGCarts are made of highly recyclable and environmentally friendly material. Portions of the cart are made of recycled water bottles, fishing nets, and ocean bound waste.

Socially Responsible

Assembly, packaging and order fulfillment is done by US Veterans and Americans with Disabilities at PRIDE Industries in California, USA.

Diversified Supplier

TAGCarts is a certified Veteran Owned Enterprise and participates in healthcare systems diversified supplier mentorship programs.

Pay it Forward

TAGCarts is committed to better health and a better planet. For every medical cart we sell, you remove 100 lbs. of ocean bound plastic waste. For every 100 carts we sell, you donate 10 HEROCarts to displaced or at risk populations in need.
